

## WEB TECHNOLOGY DEVELOPERS

### JOB SPECIFICATION

#### Key responsibilities:

As an independent developer operating on a freelance basis you will be responsible for the back-end technologies relating to both Affiniti's and its clients' websites:

- Develop and maintain database driven websites and applications using Classic ASP, ASP.NET and PHP as required.
- Create, develop, design and maintain SQL or MySQL databases.
- Make recommendations at all levels in design, content and structure of web sites.
- Keep up-to-date with new developments in methods of web site creation, design and internet technologies and make recommendations as to their suitability for use.

#### Candidate Profile and Key Attributes:

- Demonstrably strong programming ability in ASP / ASP.NET, C# .NET, VB, SQL, PHP, mySQL, XHTML, HTML5, JQuery, CSS3, JavaScript, XML etc.
- Familiarity with the use of content management systems.
- Understanding of user experience design, testing, web accessibility, standards compliance and cross platform compatibility.
- Excellent communication, analytical and problem solving skills.
- Very strong attention to detail.
- Ability to work closely to a brief and on your own initiative as required.
- Ability to work totally autonomously and work under pressure to achieve deadlines.

#### Location:

While the Developers role is primarily freelance/ home-based, it will be necessary to meet occasionally with other Affiniti staff (based in Reigate, Surrey).

#### To Apply:

Visit [www.affinitimedia.co.uk/jobs/web-technology-developers.php](http://www.affinitimedia.co.uk/jobs/web-technology-developers.php) and complete the brief enquiry form.
